2024

DAY 2

01 02 2024

TODAY:

The morning session was marked by a flurry of speeches, resolution proposals, and diplomatic negotiations. The atmosphere was a mix of seriousness and excitement, with delegates delving into passionate debates and collaborative discussions. It quickly became apparent that the discussions were not only intense but also constructive, as representatives worked together to find common ground and solutions.

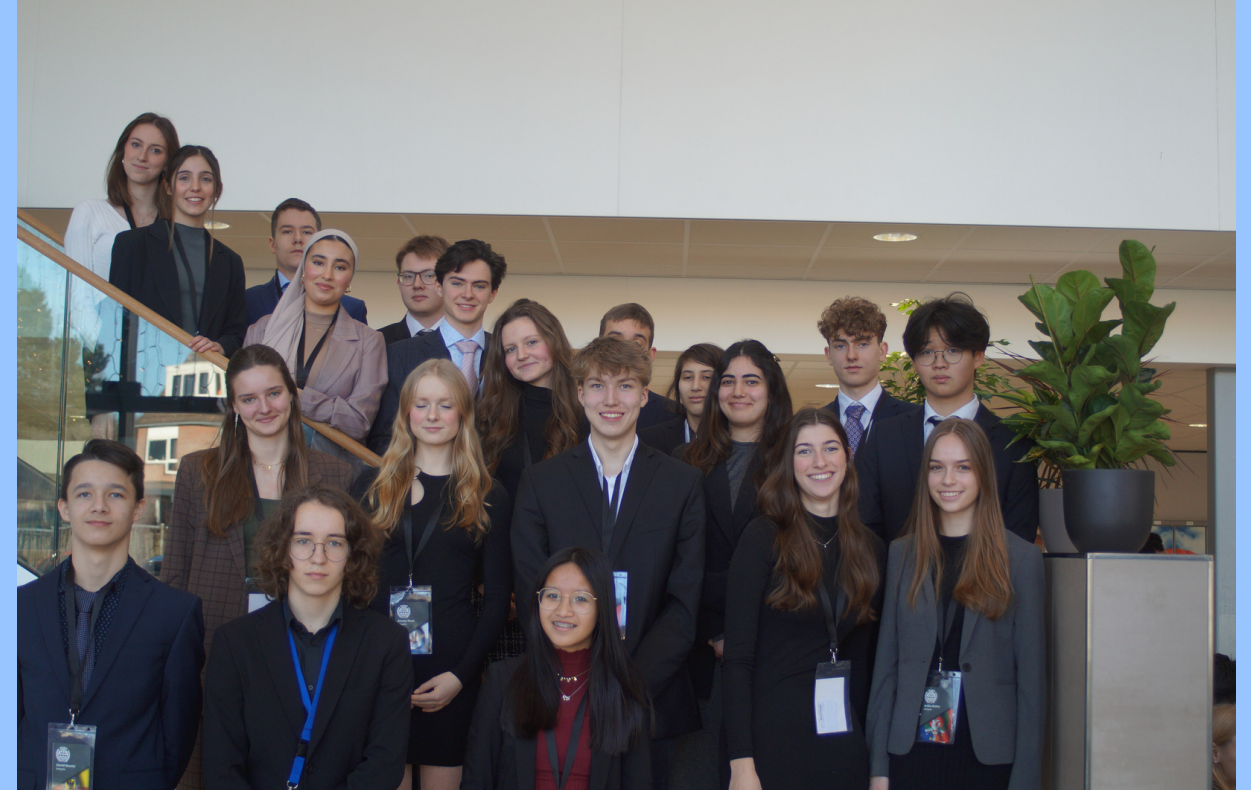

During the break, the delegates got a nice surprise. There was Roti and tasty Surinamese sandwiches for everyone. It added a cool mix of flavors to the MUN event, making lunchtime a special moment. Eating together and enjoying these different foods brought everyone closer, creating a friendly atmosphere among the participants.

After a lunch that boosted their energy, the delegates went back to the meeting room for the afternoon. They kept talking, making friends, and fixing their decisions. Everyone worked together really hard, and you could feel how much they cared as they dealt with tricky diplomatic situations.

As the night unfolded, we had a MUNA party a memorable extension of the MUN experience. Building a feeling of togetherness among the delegates became a key highlight of the MUNA party. It was a perfect way to wrap up a day filled with diplomacy, cultural exchange, and newfound friendships, leaving everyone with lasting memories of both the serious discussions and the joyous celebration that followed.

MUNA PARTY

INTERVIEW WITH TJEERD DUURSMA

Why did you choose to be conference manager?

It feels great to be part of the organisation of such a big event. I liked the experience of having leadership.

How do you look back upon the preparation of MUNA 2024 and what kind of hindrances were there?

I feel like it went very well. The staff was very motivated and spent lots of their time into the preparation of MUNA. The only hindrance this year was that too many foreign schools wanted to participate which caused an overload of housing students.

What do you think of this year's MUNA staff?

This year's staff is really great. Their big efforts and input of time into the organisation of MUNA 2024 made sure this MUNA could be possible. I am really proud of them.

What is your favourite part of MUNA?

My favourite part of MUNA is the opening ceremony, since everybody has a lot of enthusiasm for what's about to come but also a bit nervous. But afterwards, everyone is relieved from their nerves.

Are you satisfied with how MUNA 2024 turned out and what could be improved in the future?

Yes, I am really satisfied with how MUNA turned out. I do feel like an improvement for the upcoming MUNA's could be that chairs need a better understanding of their task, because I feel like many chairs have no clue what they are doing. This could be done by more chairing lessons.

If you were a delegate, which country would you represent and why?

I would definitely represent my own country, The Netherlands, if I could. I would do this since I am born and also live in this country, and I would love to stand up for my own country.
